BUREAU OF AGRICULTURAL ECONOMICS

SUMMARIES FROM FARM-BUSINESS ANALYSIS STUDIES *in the* UNITED STATES 1907-39

By

H. W. HAWTHORNE
Agricultural Economist

WASHINGTON, D. C. DECEMBER 1941

Acknowledgments

This publication was made possible only by the hearty cooperation of the research and extension staffs of the farm management and agricultural economics departments in the several State Agricultural Colleges, who supplied much of the data; and by that of a number of individuals in several of the agencies of the United States Department of Agriculture, more especially coworkers in the Bureau of Agricultural Economics who also supplied data for studies with which they were familiar. Thanks are due to all of these, and to others who have helped from time to time.

SUMMARIES FROM FARM-BUSINESS ANALYSIS STUDIES IN THE UNITED STATES, 1907-39

		Appendix	254

The following pages contain a list of most of the farm-business analysis studies that have been made in the United States up to and including 1939. Insofar as possible, each study is accompanied with information concerning the method by which the data were obtained, the farm year covered by the study, the number of farms included, the principal sources of farm receipts, and

references to publications pertaining to the study. Other data included are averages for size of farm, farm capital, farm receipts, farm income, labor income, percentage return on farm capital, and family living from the farm.

The publication of these summaries was prompted by frequent requests for information on various phases of farm-business analysis. Requests have come from individual farmers, or prospective farmers; from individuals, or companies, engaged in other businesses; from teachers of farm management in colleges, high schools, and vocational agricultural schools; from other agricultural leaders in the States; and not infrequently from the Department of Agriculture and other Federal agencies.

Summaries for many of the studies made before 1930 were published in the Yearbooks of Agriculture for 1925, 1931, and 1933. In some instances, figures published in these Yearbooks have been revised slightly before use in this report.

In some instances these summaries will answer all the questions asked; in others they will give a partial answer; and in still others they will direct the thoughts of persons unfamiliar with farming into a fuller comprehension of what farming really is.

Publications pertaining to these summarized studies offer information in more detail than shown in these pages. A list of these publications is given in most cases after the summary for each State. Such reports frequently contain an elaborate analysis of the business of the farms included in the study, show the organization of some farms that were operated successfully, and suggest changes in farm organization that should result in more efficient farming.

Such studies and summaries are the bases of extensive activity in planning individual farms. Formerly the planning was done by individual farmers aided by farm-management workers. Now the aid comes largely through agencies set up specifically for such purposes. The over-all objective in farm-business analysis studies is to have created in the United States well-balanced farms that will not only insure effective production, conservation, good land use, and home improvement, but will also insure economic security and a comfortable healthy living for farm families. Therefore, it seems altogether probable that lessons learned from farm-business analysis studies are being used more and more in making individual farm plans.

BRIEF HISTORY OF FARM-BUSINESS ANALYSIS STUDIES

In the earliest years of farm-business analysis the immediate objective of research studies might be well summed up in a quotation from one of the early publications, "to determine the relative

condition of the farms in the region, the prevailing types of farming, and the profitableness of these types for the section; also to learn the distribution of capital, income, and expenses, so as to gain a correct view of the agriculture as it now exists."

As farm-business analysis studies developed, the objectives were broadened, and often they were made with a special purpose in mind, as studies of small farms, of part-time farms, of low-income farms, of highly mechanized farms, or of a special type of farm.

So far as known, the first systematic farm-business analysis of a group of farms in a given locality, with results that were considered sufficiently satisfactory for publication, was made in four townships in Tompkins County, N. Y. This study covered the farm year April 1, 1907 to March 31, 1908. Data for the study were obtained by the survey method under the direction of the late Dr. George F. Warren, assisted by K. C. Livermore, C. M. Bennett, H. N. Kutschbach, E. H. Thomson, F. E. Robertson, and E. L. Baker, all of Cornell University. Results were published by the Agricultural Experiment Station of Cornell University in Bulletin No. 295, March 1911.

The next year a similar study was made in five northern Livingston County townships, N. Y., for the farm year 1908; and 2 years later by another in Jefferson County, N. Y., for the farm year 1910. These studies were also made by Cornell University, and as the methods of obtaining the data were improved, the results were considered even more satisfactory than those from the Tompkins County study.

The earliest participation of the Federal Government in this type of study occurred in 1909, when at the request of the New Hampshire Agricultural Experiment Station, the then Office of Farm Management, a part of the Bureau of Plant Industry, made a cooperative study in four towns (townships) in the southern part of Hillsboro County, N. H. The study, covering the farm year 1908, was conducted under the general direction of the late Dr. William J. Spillman, and under the immediate supervision of E. H. Thomson. A year later another study, also in cooperation with the New Hampshire Agricultural Experiment Station, was made in two localities in New Hampshire for the year 1909 - one in the Suncook Valley, and including parts of Belknap and Merrimack Counties, and the other along the Connecticut River and including a part of Grafton County. This was also under the general direction of Dr. Spillman, but was under the immediate supervision of Lawrence G. Dodge and Fred E. Robertson. Results from the New Hampshire studies were published in United States Department of Agriculture, Bureau of Plant Industry Circulars Nos. 75 and 128.

Other early studies by the Office of Farm Management (which was a part of the Bureau of Plant Industry until June 30, 1915, and an independent office directly under the Secretary of Agriculture until its name was changed to the Office of Farm Management and Farm Economics July 1, 1919) were:

Indiana, parts of Clinton and Tipton Counties; Illinois, parts of Cass and Menard Counties; and Iowa, parts of Greene and Guthrie Counties, 1910. See U. S. Dept. Agr. Bul. 41.

Pennsylvania, part of Chester County, 1911. See U. S. Dept. Agr. Bul. 341.

Michigan, part of Lenawee County, 1911. See U. S. Dept. Agr. Bul. 694.

Oregon, parts of Marion and Polk Counties, 1912. See U. S. Dept. Agr. Bul. 705, and

Utah, Utah County, Provo area, 1913. See U. S. Dept. Agr. Bul. 117.

Before 1913, several of the Agricultural Experiment Stations had launched farm-business analysis studies within their States. Among these, in addition to New York, were Ohio, Minnesota, and Missouri. The Ohio Station in cooperation with the Office of Farm Management had made a study in Auglaize County for the year 1910, and another in Columbiana County for the year 1911; the Minnesota Station, one in Rice County for the year 1911, and again for 1912; and the Missouri Station, one in Johnson County for 1912. Results from the Minnesota study, 1912, were published in Minn. Agr. Expt. Sta. Bul. 172, and from the Missouri study in Mo. Agr. Expt. Sta. Buls. 121 and 140. Results from the Ohio studies, and from the Minnesota study, 1911, were not published.

All of these studies had been conducted strictly as research projects. The original data were obtained by the survey method in which representatives of the Federal Government, or of the State, visited each farmer, and, by a long series of questions, obtained information direct from him pertaining to his farm business for the year designated. This information was then recorded on blanks prepared for the purpose; later the answers were tabulated and analyzed, and a manuscript was prepared, and usually published in bulletin form. Practically all of the farms within a prescribed

area were visited, and insofar as possible data were obtained for each farm. Usually several hundred farms were included in a study.

Farm Management extension work was introduced in New York and Ohio in 1912, and in Massachusetts in 1913. Only July 1, 1914, a Federal project for farm-management demonstration work was established by the chief of the Office of Cooperative Extension Work, North and West. At this time, an impetus was given to what was then called farm management demonstrations, and these were soon inaugurated in several of the northern and western States. The demonstrations, when first introduced, were almost entirely confined to: (1) Obtaining 50 to 100 farm-business analysis survey records in a locality by the State Farm Management Demonstrator or the County Agricultural Agent; (2) summarizing these records, and preparing data from them to show the local application of certain farm-management principles and factors, which had previously been brought out in the research studies of larger numbers of farms; and (3) through visits to the individual farmer, or by meetings of groups of farmers, returning a summary of each farmer's business together with figures by which the individual farmer could make comparisons of his business with the average of the other farms in his locality.

After a few years "simple farm account books" were developed in many of the States. In these, farmers would record their farm-business transactions as they occurred. The books were later summarized, and the demonstrations were usually based on the account-book records rather than on those obtained by surveys.

Survey records from only a relatively few farms had been obtained up to 1914; but farm-business analysis studies have made rapid strides since then. Both extension and research workers have carried on farm-business analysis projects, and frequently the data obtained by either group have been used for research and extension purposes. During recent years a number of the newer agricultural agencies have cooperated in making farm-business analysis studies. Among these are the Agricultural Adjustment Administration, the Soil Conservation Service, the Farm Credit Administration, and the Farm Security Administration, formerly the Resettlement Administration. The total number of farms covered by the farm-business analysis studies listed in the following pages were approximately: 1,500 for the year 1910; 3,600 for 1920; 14,000 for 1930; and 17,000 for 1939.

In the later years, both the survey and the farm-account methods are used in obtaining the original data for farm-business analysis studies, with a tendency more toward the farm-account method than in the earlier years. Fewer farms per study are included now than in the earliest years, although occasionally a survey including several hundred farms is made, for example, Chamberlain, Tallapoosa Counties, Ala., 1933 and 1934; Lincoln County, La., 1938; Livingston County, N.Y., 1938; and Russell County, Va., 1935.

EXPLANATION OF TERMS

Interpretation of the terms used in this tabulation is essentially in accord with their use in Farmers' Bulletin No. 1139, "A Method of Analyzing the Farm Business." They are briefly described as follows:

Year. - In many instances the year covered by the study is not the calendar year, but the farm year as determined by the project leader. When not a calendar year, the year given is that in which the crops were usually harvested. Thus, 1939 may mean the calendar year 1939, or from March 1, or April 1, 1939 to February 29 or March 31, 1940. The tendency in late years is to use the calendar year.

Farms. - The number of farms included in the study. Unless otherwise noted, the data are for the entire farm, that is, in case of rented, or part-rented farms, the operator's and landlord's shares are combined.

Size of farm: Total. - The acreage of land operated as one farm, or unit. All, or practically all, of the area is operated by one set of machinery, horses, workmen, etc. The farm may consist of all-owned, all-rented, or both owned and rented land. When two or more farms are owned by the same person, or persons, but are operated independently of each other, they are considered separate farms.

Size of farm: Crops. - The acreage in fruit trees, tilled, intertilled, and hay crops. Does not include pasture except annual crops when used as pasture. If more than one crop is grown on any of the land during the year, the acreage is counted but once in computing the acres in crops.

Farm capital: Total. - The value of all real estate, machinery, livestock, and other property used to carry on the year's business. It usually includes the value of the farm dwelling, but not of the household furnishings.

Farm capital: Real estate. - The value of the farm, including buildings, fences, and water supply.

Farm receipts: - Proceeds from the sale of crops produced during the farm year, the increase from livestock, and the receipts from work off the farm, rent of buildings, woodlot products, etc. Receipts do not include the value of the family living obtained from the farm. Differences in method of calculating receipts and expenses employed in the original computations of the data for some of the studies have been eliminated in most instances when the data were assembled for this table. For the occasional study in which it was

impracticable to eliminate these differences, receipts and expenses as shown may be slightly higher or lower than they should be in order to be strictly comparable with those for the other studies. In a tabulation of this sort, where only averages for a number of farms are given, these differences are rarely of more than minor significance as they affect the receipts and the expenses, and there is no difference in the farm income.

Farm expenses. - The term "farm expenses" has been omitted from this table for lack of space. However, they represent the annual expenditures made in carrying on the farm business. They include depreciation on buildings and equipment, and the unpaid labor performed by members of the farm family, but do not include the farmer's own labor, or any household and personal expenses. Ordinarily, interest paid on indebtedness is not included as a farm expense.

Farm income. - The difference between farm receipts and farm expenses. It does not include the value of the family living furnished by the farm.

Family farm income. - Although family farm income is not itemized in the table, it can be calculated by adding the value of family labor to the farm income. This will not include the value of the operator's labor or the value of family living obtained from the farm. In some instances, the value of family labor was not reported, and could not be determined from the data secured. In these cases, the figure is listed as "farm income" and is footnoted.

Labor income. - Farm income minus an interest charge for use of the farm capital. It does not include family living obtained from the farm. Except where noted, a 5 percent interest rate has been used throughout this table. In studies in which the value of family labor was not obtained, the figures in the labor-income column actually represent the labor income of the farm family, and are so designated in the footnotes. In a few studies, rent for the use of land is used in place of an interest charge in calculating labor income. In some studies, interest paid on farm indebtedness was included as a farm expense; in these cases interest on the capital owned only by the farmer was charged in calculating labor income.

Return on capital. The percentage return to farm capital after the estimated value of the farmer's labor is deducted from the farm income. (See Farmer's labor below).

Family living from farm: - The food products, the fuel, and the housing furnished by the farm for the operator and his family. This is in addition to any other income received from the farm business.

Farmer's labor. - An allowance for the operator's own labor and management at the rate he would have to pay another to take his place. It does not include family living obtained from the farm or labor furnished by other members of the farm family.

Family labor. - The unpaid family labor determined on the basis of the additional cost of labor that would need to be hired to carry on the same sized business if the family labor had not been available. This item does not include the labor of the operator.

Principal sources of receipts. - These are named in order of importance and usually include enough enterprises to amount to 75 percent or more of the total farm receipts. (Even though more than 4 enterprises may be needed to make up this percentage, the number of enterprises is limited to the 4 highest.) Under this heading cotton includes sales of cottonseed; poultry includes sales of eggs; sheep includes lambs and wool; horses include mules and colts; work includes man, man and team, man and tractor, and machine work done by the farmer off the farm for hire; wood includes sales of timber, lumber, posts, firewood, etc. Cattle does not include sales of dairy products. In some instances receipts were grouped as crops, livestock, miscellaneous, and were not available in such detail (of enterprises) as listed above. Under this heading abbreviations or contractions, as follows, are sometimes used:

alf. seed = alfalfa seed
clo. seed = clover seed
gr. sorghum = grain sorghum
g. fruit = grape fruit
L. beans = Lima beans
l. stock = livestock
s. beets = sugar beets
s. berries = strawberries
s. cane = sugar cane
s. or sw. corn = sweet corn
s. or sm. grains = small grains
s. or sw. potatoes = sweet potatoes
tob. = tobacco
veg. = vegetables
misc. = miscellaneous sources
Gov't paym'ts = Government payments

Specific exceptions to the above explanation of terms are indicated by references to footnotes.

Key. - The numbers indicate the agency that obtained the original data, and the letters following indicate the method used in obtaining the data; for instance

1. - United States Department of Agriculture, or other agency of the Federal Government.

2. - State College of Agriculture or Agricultural Experiment Station.

3. - Federal agencies in cooperation with State agencies.

R. - Records kept by farmers.

S. - Survey.

Thus a study with key 3R means that the data were obtained cooperatively by an agency of the Federal Government (usually the Bureau of Agricultural Economics, United States Department of Agriculture) and the State College of Agriculture, or Agricultural Experiment Station; and that they were taken from records or farm-account books kept by farmers.

Data for completed studies in some of the States were received after this report had been prepared for processing. These studies, listed in the Appendix beginning on page 254, were in Iowa, Nevada, New Hampshire, New Jersey, New Mexico, Oregon, Vermont, Washington, and Wisconsin.

Summaries from farm business analysis studies in the United States, 1907-39

1/ Family farm income.
2/ Family labor income.
3/ Does not include 41,100 acres of leased land.
4/ Value of leased land not included in capital, but cost of leased land is included in expenses.
5/ Cow ranches.
6/ Does not include estimated public domain.
7/ Totals for approximately twenty sheep outfits scattered over the State.
8/ Approximately twenty sheep outfits.
9/ Acreage not reported.
10/ Includes improvements and owned land, and a value placed on forest permits, trail rights, and group leases.
11/ Acreage not reported. Total of 78,950 sheep.
12/ Acreage not reported. Total of 80,891 sheep.
13/ Three-year average of the totals of approximately twenty sheep outfits scattered over the State.
14/ Three-year average total of approximately twenty sheep outfits.
15/ Acreage not reported. Three-year average total of 71,046 sheep.

1/ Does not include value of the farmer's dwelling.

2/ "There are relatively few general farms in the State of California. They are operated under varying soil and climatic conditions. Some of them use irrigation in crop production, others do not; or parts of the farm may be irrigated and other parts have no water available. Operators usually have a large number of crop and livestock enterprises to choose from in deciding on their farm program. As a resultof these conditions, no two farms are comparable. It is, therefore, impossible to set up standards of farm organization by analyzing general farm accounts. The usual measures of efficient farm organization used by farm management specialists in the Midwestern States are not adaptable to California conditions even for the general farming area.

Because of this situation with reference to the general farms and also because a large percentage of our California farms were highly specialized, it was deemed advisable in 1924 to discontinue stressing general farm accounts. Instead of having farmers keep general accounts, a system of enterprise accounts was inaugurated.

This idea was carried further in 1936 when this office prepared a complete book-keeping and cost accounting system for the entire farm. Such a farm record will furnish all the data required for a general summary of the farm business and will also make it possible to analyze each of the component enterprises. It is realized that few farmers could keep as complicated a set of accounts without the assistance of a trained accountant. This accounting system will, therefore, be installed only in farm accounting associations which employ accountants or on large ranches where an accountant is employed. Since the inauguration in 1924 of this method of work, there has been no radical change in method of procedure." From Annual Report of Farm Management Specialists, Dec. 1, 1936 to Nov. 30, 1937.

3/ General crops and livestock farms.

1/ Food only.
2/ Includes farms in Adams, Arapahoe, Douglas, Larimer, Logan, Morgan, Phillips, Sedgwick, Washington, Weld, Yuma Counties.
3/ Includes farms in Arapahoe, Kiowa, Las Animas, Lincoln, Logan, Sedgwick, Washington, Yuma Counties-dry land plains.
4/ Prairie ranches.
5/ Family farm income.
6/ Family labor income.
7/ Includes 12,792 acres of additional leased land, value of which is not included in farm capital, but cost of lease is included in farm expenses.
8/ Mountain cattle ranches.
9/ 1,796 acres of additional leased land, value of which is not included in farm capital but cost of lease is included in farm expenses.
10/ Includes farms in Kiowa, Las Animas, Lincoln, Logan, Sedgwick, Washington, Weld Counties-dry land plains.
11/ Operator basis only.
12/ Includes farms in Lincoln, Logan, Washington, Weld Counties-dry land plains.
13/ Includes farms in Lincoln, Logan, Sedgwick, Washington, Weld Counties-dry land plains.
14/ Crops sold minus feed bought and plus increase or minus decrease in feed inventory.
15/ Does not include value of farmer's dwelling.
16/ Includes farms in Phillips, Sedgwick, Washington, Yuma Counties.

10/ Hatching and breeding farms.
11/ Retail and hatching farms.
12/ In this part-time farming study, the farms in each locality were divided into two groups--one designated as residence farming, in which little or no attempt is made at commercial farm production, and the other semi-commercial farming in which some attempt is made at commercial farm production. The items under "Principal sources of receipts" are listed in order of the total value of production, the amount listed in the "Farm receipts" column represents the value of farm products sold.
13/ Farm products sold. Does not include work off the farm.
14/ Does not include value for use of farmer's dwelling.

1/ In this study "rents" were used in lieu of interest and taxes on real estate. Rents have been deducted in the "farm income" figures shown. The labor income figure was obtained by deducting an interest charge for the working capital from the "farm income".
2/ Same farms in 1937 and 1938.
3/ Does not include value of farmer's dwelling.
4/ Cash farm receipts plus increase in farm inventory.
5/ Food products only.

GEORGIA - Continued

1/ Sandy Creek Soil Conservation Service Area.
2/ South Georgia.
3/ Family farm income.
4/ Family labor income.
5/ Includes farms in Colquitt, Dougherty, Mitchell, Randolph, Tift, Turner, and other counties.
6/ Does not include value for use of farmer's dwelling.
7/ Includes farms outside of Tennessee Valley Area.
8/ Includes farms in the Tennessee Valley Area.
9/ Includes farms in the Tennessee Valley Area and outside the Tennessee Valley Area.
10/ "There are 36 Georgia farmers who have been selected as outstanding for their accomplishments on their farms and help in establishing a high standard of farm life in their communities. These men were awarded Master Farmer Certificates by the Georgia State College of Agriculture in cooperation with the Progressive Farmer. Twelve awards were made in each of the years 1927,1928, and 1930. They were selected each year from about 100 nominees of the leading farmers of the State."
11/ Supervision.
12/ Same farms each year.
13/ Crops harvested.

1/ Net increase of crops sold, feed bought and change in feed and supply inventories.
2/ Includes farms in Adams, Brown, Hancock, Pike, Schuyler counties.
3/ Includes farms in Adams, Brown, Pike, Schuyler counties.
4/ Does not include value for use of farmer's dwelling.
5/ Includes farms in Alexander, Jackson, Johnson, Pulaski, Union counties.
6/ Includes farms in Alexander, Jackson, Johnson, Massac, Pulaski, Union counties.
7/ Includes farms in Alexander, Hardin, Jackson, Johnson, Massac, Perry, Pope, Pulaski, Union counties.
8/ Includes farms in Bond, Macoupin, Madison, Montgomery counties.
9/ Includes farms in Bond, Clinton, Monroe, Montgomery counties.
10/ Includes farms in Boone, Cook, DuPage, Lake, McHenry counties.
11/ Includes farms in Boone, DuPage, Kane, Lake, McHenry counties.
12/ Includes farms in Boone, Cook, DuPage, Kane, Lake counties.
13/ Includes farms in Brown, Morgan, Pike, Schuyler counties.
14/ Includes farms in Brown, Cass, Mason, Morgan, Pike counties.
15/ Includes farms in Bureau, Marshall, Putnam, Stark counties.
16/ Includes farms in Bureau, Henry, Marshall, Putnam, Stark counties.
17/ Includes farms in Bureau, Marshall, Putnam, Stark counties.
18/ Includes farms in Carroll, Jo Daviess, Stephenson counties.
19/ Includes farms in Carroll, Rock Island, Whiteside counties.
20/ Includes farms in Carroll, Lee, Ogle, Rock Island, Whiteside counties.
21/ Includes farms in Carroll, Lee, Ogle, Whiteside counties.
22/ Includes farms in Christian, Douglas, Moultrie, Shelby counties.
23/ Includes farms in Christian, Clark, Cumberland, Shelby counties.
24/ Includes farms in Christian, Macoupin, Montgomery, Shelby counties.
25/ Includes farms in Christian, Clark, Crawford, Cumberland, Shelby counties.
26/ Includes farms in Christian, Clark, Crawford, Shelby counties.
27/ Includes farms in Clark, Coles, Douglas, Moultrie counties.
28/ Includes farms in Clark, Coles, Douglas, Vermilion counties.
29/ Includes farms in Clark, Crawford, Lawrence, Wabash counties.
30/ Includes farms in Clay, Jefferson, Marion, Richland, Wayne counties.
31/ Includes farms in Clay, Edwards, Jefferson, Marion, Richland, Wayne counties.
32/ Includes farms in Clay, Franklin, Jackson, Jefferson, Johnson, Marion, Pope, Richland, Wayne, Williamson counties.
33/ Includes farms in Clay, Jackson, Jefferson, Johnson, Marion, Richland, Wayne, Williamson counties.
34/ Includes farms in Clay, Jackson, Jefferson, Marion counties.
35/ Includes farms in Clay, Crawford, Edwards, Jackson, Jefferson, Johnson, Marion, Richland, Saline, Wabash, Washington, Wayne, White counties.
36/ Includes farms in Clay, Jackson, Jefferson, Marion, Richland counties.
37/ Includes farms in Clay, Franklin, Jackson, Jefferson, Johnson, Marion counties.
38/ Includes farms in Clay, Franklin, Hamilton, Jefferson, Marion, Richland counties.
39/ Includes farms in Clay, Franklin, Hamilton, Jefferson, Marion, Richland, Williamson counties.
40/ Includes farms in Clay, Franklin, Hamilton, Marion, Richland, Williamson counties.
41/ Includes farms in Clinton, Fayette, Washington counties.
42/ Includes farms in Coles, Douglas, Edgar, Vermilion counties.
43/ Includes farms in Coles, Douglas, Edgar, Moultrie counties.
44/ Includes farms in Coles, Douglas, Moultrie, Shelby counties.
45/ Includes farms in Coles, Douglas, Logan, Moultrie, Piatt counties.
46/ Includes farms in Cook, DuPage, Kane, Kendall, Lake, McHenry counties.
47/ Includes farms in Cook, DuPage, Kane, Kendall, Lake counties.
48/ Includes farms in DeWitt, Logan, Marion, McLean, Piatt, Tazewell counties.
49/ Includes farms in Edwards, Lawrence, Richland, Wabash counties.
50/ Includes farms in Edwards, Gallatin, Sabine, Wabash, White counties.

ILLINOIS - Continued

51/ Includes farms in Edwards, Gallatin, Johnson, Saline, Wabash, White, Williamson counties.
52/ Includes farms in Edwards, Saline, Wabash, White counties.
53/ Includes farms in Edwards, Gallatin, Richland, Saline, Wabash, Wayne, White counties.
54/ Includes farms in Edwards, Lawrence, Saline, Wabash, White counties.
55/ Includes farms in Edwards, Gallatin, Lawrence, Saline, Wabash, White counties.
56/ Includes farms in Gallatin, Johnson, Pulaski, Saline, White counties.
57/ Includes farms in Gallatin, Johnson, Pulaski, Saline, White, Williamson counties.
58/ Includes farms in Gallatin, Jefferson, Marion, Saline, White, Williamson counties.
59/ Includes farms in Gallatin, Pope, Saline, White, Williamson counties.
60/ Includes farms in Gallatin, Lawrence, Saline, Wabash, White counties.
61/ Includes farms in Grundy, LaSalle, Marshall, Putnam counties.
62/ Sales of feed, grain and supplies.
63/ Includes farms in Henderson, Mercer, Rock Island, Whiteside counties.
64/ Includes farms in Henry, Marshall, Putnam, Whiteside counties.
65/ Includes farms in Iroquois, Kankakee, Vermilion counties.
66/ Includes farms in Jo Daviess, Stephenson, Winnebago counties.
67/ Includes farms in Lee, Ogle, Rock Island, Whiteside counties.
68/ Includes farms in Lee, Ogle, Whiteside, Winnebago counties.
69/ Includes farms in Livingston, McLean, Tazewell, Woodford counties.
70/ Livestock sales except dairy and poultry.
71/ Based on $150 an acre for the better land without improvements.
72/ Includes farms in Logan, Macon, McLean, Tazewell counties.
73/ Includes farms in Logan, Macon, Mason, McLean, Piatt counties.
74/ Soil Conservation Service records in Arrowsmith and Dawson areas.
75/ Soil Conservation Service records in the Pin Oak area.
76/ Includes farms in Marion, Monroe, Randolph, Washington counties.
77/ Soil Conservation Service records in the Perryton area.
78/ Includes farms in Monroe, Randolph, Saint Clair counties.
79/ Includes farms in Monroe, Randolph, Washington counties.
80/ Includes farms in Monroe, Randolph, Saint Clair, Washington counties.
81/ Soil Conservation Service records in Buckeye and Dakota townships.
82/ Includes farms in Warren county, Illinois, and Henry county, Iowa.
83/ Soil Conservation Service records in the East and West Marion area.
84/ Does not include value of farmer's dwelling.
85/ Cash farm receipts less cash farm expenses, or cash balance.
86/ Includes value of farmer's labor and family labor.
87/ Cash farm income plus increase in farm inventory less value of unpaid labor.
88/ Chicago dairy area.
89/ Listed in original report as feed and grain.
90/ Northwestern mixed livestock area.
91/ Western livestock and grain area.
92/ East-central cash grain area.
93/ West-central general farming area.
94/ St. Louis dairy and wheat area.
95/ South-central mixed farming area.
96/ Wabash Valley grain and livestock area.
97/ Southern fruit and vegetable area.

1/ Muck land farm study. Includes farms in Elkhart, Jasper, Kosciusko, La Porte, Marshall, Noble, St. Joseph, Starke, Whitley counties, Indiana and certain counties in southern Michigan.
2/ Includes farms in Elkhart, Fulton, Jasper, Lake, La Porte, Marshall, Newton, Porter, Pulaski, St. Joseph, Starke counties - northwestern Indiana.
3/ Includes farms in Elkhart, Fulton, Jasper, Lake, La Porte, Marshall, Porter, Pulaski, St. Joseph, Starke counties - northwestern Indiana.
4/ Less than 125 acres farmed.
5/ Less than 125 acres tillable.
6/ 125 to 225 acres farmed.
7/ 125 to 225 acres tillable.
8/ More than 225 acres farmed.
9/ More than 225 acres tillable.
10/ Northwest dairy area.
11/ Kankakee grain and pasture area.
12/ Northeast dairy and general farming area.
13/ Western cash grain area.
14/ Central grain and livestock area.
15/ Northeast general farming area.
16/ Southwest corn and wheat area.
17/ South central mixed farming area.
18/ Corn, wheat, and hog area.
19/ Southeast general farming area.
20/ Dairy, hay, and tobacco farming area.

1/ Same farms in 1914 and 1915.
2/ Includes farms in Henry County, Iowa, and Warren County, Illinois.
3/ Gross income which includes sales of farm products, products to personal, and increase in assets.
4/ Net income which is gross income less gross expense.
5/ Products to personal.
6/ Includes farms in Benton, Buchanan, Cedar, Delaware, Johnson, Jones, Linn, and Washington Counties.
7/ Includes food and fuel used in home.
8/ Includes farms in Benton, Buchanan, Cedar, Delaware, Johnson, Jones, Linn, Muscatine, Tama, and Washington Counties.
9/ Includes farms in Benton, Buchanan, Butler, Cedar, Delaware, Grundy, Jones, Linn, and Tama Counties.
10/ Includes farms in Benton, Buchanan, Butler, Cedar, Delaware, Grundy, Johnson, Jones, Linn, and Tama Counties.
11/ Does not include value for the use of farmer's dwelling.
12/ Includes farms in Benton, Grundy, Jones, Linn, and Tama Counties.
13/ Includes farms in Benton, Butler, Delaware, Grundy, Iowa, Jones, Linn, Marshall, Poweshiek, and Tama Counties.
14/ Includes farms in Butler, Franklin, Grundy, and Hardin Counties.
15/ Includes farms in Boone, Calhoun, Greene, and Webster Counties.
16/ Includes farms in Boone, Butler, Calhoun, Franklin, Greene, Grundy, Hardin, and Webster Counties.
17/ Includes farms in Boone, Calhoun, Dallas, Franklin, Greene, Hamilton, Hardin, Polk, Story, Webster, and Wright Counties.
18/ Includes farms in Boone, Dallas, Franklin, Greene, Hamilton, Hardin, Polk, Story, Webster, and Wright Counties.

19/ East Central Iowa Meat District.
20/ Includes Farms in Cedar, Clinton, Johnson, Louisa, Muscatine, Scott, Washington Counties.
21/ Includes Farms in Allamakee, Black Hawk, Bremer, Chickasaw, Clayton, Delaware, Dubuque, Fayette, Floyd, Howard, Winneshiek Counties.
22/ Includes Farms in Allamakee, Black Hawk, Bremer, Buchanan, Chickasaw, Clayton, Delaware, Dubuque, Fayette, Floyd, Howard, Mitchell, Winneshiek Counties.
23/ Farm Organization and Management Study with Particular Reference to the production of Beef Cattle.
24/ Includes farms in Decatur, Ringgold Counties, Iowa, and Harrison County, Missouri.
25/ Includes farms in Fremont, Mills, Montgomery, Page Counties, Iowa, and Atchison County, Missouri.
26/ Includes farms in Fremont, Montgomery, Page Counties, Iowa, and Atchison County, Missouri.
27/ Cash grain district.
28/ Dairy district.
29/ Includes farms in Buena Vista, Cherokee, Ida, Lyon, O'Brien, Osceola, Plymouth, Sac, Woodbury Counties.
30/ Includes farms in Buena Vista, Cherokee, Ida, Lyon, O'Brien, Osceola, Plymouth, Sac, Sioux, Woodbury Counties.
31/ Pasture district.
32/ Western Iowa Meat District.

1/ In these counties in 1930 all figures except acreages are for the operator only. For all of the counties about 20 percent of the farms were straight owner farms, about 20 percent straight tenant farms, and about 60 percent were farms whose operators owned part of the land and rented part. A share of the crops was given for the use of the rented land. The average owned acreages per farm for the several counties were: Clark, 438 acres; Comanche, 472 acres; Finney, 277 acres; Ford, 288 acres; Gray, 454 acres; Meade, 465 acres; all counties, 402 acres.
2/ Family farm income.
3/ Family labor income.
4/ Does not include value of rented land or value of farmer's dwelling.
5/ Does not include value for use of farmer's dwelling.
6/ Wheat and livestock area. Association No. 1, 1932-39.
7/ All figures except acreages are for operator only.
8/ After interest paid has been deducted.
9/ Wheat and livestock area, Association No. 2, 1932-39.
10/ Southwest wheat and cattle area, Association No. 3, 1937-38.

KENTUCKY - Continued

1/ Same 28 farms on which records were kept in 1927 only.
2/ Same 19 farms on which records were kept every year, 1927-33.
3/ Includes farms in Adair, Allen, Barren, Green, Hardin, Monroe, Pulaski, Rockcastle, Taylor, Wayne counties.
4/ Includes farms in Adair, Barren, Green, Pulaski, Rockcastle, Taylor counties.
5/ Includes farms in Adair Barren, Green, Rockcastle, Taylor counties.
6/ Includes farms in Adair, Barren, Green, Taylor counties.
7/ Includes farms in Allen, Barren, Daviess, Monroe, Ohio, Simpson counties.
8/ Includes farms in Anderson, Garrard, Mercer, Washington counties-limestone, hill land farms.
9/ Includes farms in Anderson, Garrard, Mercer, Washington counties-with 85-100 percent of the land Eden silty and stony clay loam, or similar soil, and less than 8 percent bottom land.
10/ Includes farms in Anderson, Garrard, Mercer, Washington counties-with 85-100 percent of the land Eden silty and stony clay loam,or similar soil and 8 percent or more bottom land.
11/ Includes farms in Anderson, Garrard, Mercer, Washington counties-with 75-85 percent of land Eden silty and clay loam.
12/ Includes farms in Ballard, Calloway, Carlisle, Graves, McCracken, Marshall counties-purchase region.
13/ Includes farms in Ballard, Calloway, Graves, McCracken, Marshall counties-purchase region.
14/ Dairy specialty farms.
15/ General farms.
16/ Fruit and vegetable farms.
17/ Includes farms in Bourbon, Clark, Fayette, Jessamine, Scott, Woodford counties-farm tenancy study.
18/ Included in the preceding 176 farms in the same area.
19/ Includes farms in Bourbon, Boyle, Clark, Madison, Montgomery counties.
20/ Includes farms in Bourbon, Clark, Fayette, Harrison, Jessamine, Scott, Woodford counties.
21/ Includes farms in Boyle, Clark, Garrard, Jessamine counties.
22/ Includes farms in Boyle, Grant, Montgomery, Owen counties.
23/ These farms are included in the 226-farms 1925, for Ballard, Calloway, Graves, McCracken, Marshall counties.
24/ Includes farms in Daviess, Hancock, Henderson, Ohio counties.
25/ Includes farms in Fleming, Grant, Marion, Owen, Washington counties.
26/ Includes farms in Fleming, Grant, Marion, Mason, Owen, Washington counties.
27/ Includes farms in Fleming, Grant, Owen, Bracken counties.
28/ Includes farms in Fleming, Boone, Bracken, Grant, Henry, Marion, Montgomery, Owen, Pendleton, Shelby, Spencer, Trimble, Washington counties.
29/ Includes farms in Fulton, Graves, Calloway, McCracken counties.
30/ Includes farms in Hopkins, Caldwell, Ohio, Union counties.
31/ Includes farms in Hopkins, Caldwell, Christian, Todd, Union counties.
32/ Includes farms in Hopkins, Caldwell, Christian, Ohio, Todd counties.
33/ Includes farms in Hopkins, Caldwell, Christian, Todd counties.
34/ Same 25 farms in 1929 and 1931.
35/ Includes farms in Knox, Laurel, Whitely counties-part time farming.
36/ Farms with little, or no work off the farm.
37/ Farms under 200 tillable acres.
38/ Farms over 200 tillable acres.
39/ Includes farms in Todd, Barren, Caldwell, Christian, Logan, Simpson counties.
40/ Farms in a group from 55 to 154 tillable acres.
41/ Farms in a group from 155 to 254 tillable acres.
42/ Farms in a group of 255 or more tillable acres.

1/ Includes farms in Acadia, Calcasieu, Jefferson Davis counties.
2/ Includes farms in Acadia, Calcasieu, Jefferson Davis, Vermilion counties.
3/ Farm income calculated from rentals was $20; and labor income -$256.
4/ Includes farms in Ascension, Assumption, Iberia, Iberville, St. Martin, Vermilion counties.
5/ Includes farms in Ascension, Bienville, Claiborne, East Baton Rouge, Rapides, Tangipahoa, Webster, West Baton Rouge counties.
6/ Family farm income.
7/ Family labor income.
8/ Farms without cropper labor.
9/ Food only.
10/ Cotton farms.
11/ Cotton and livestock farms.
12/ Cotton and vegetable farms.
13/ Cotton and dairy farms.
14/ Farms with cropper labor.
15/ Includes farms in Bienville, Caldwell, Jackson, Winn counties.
16/ Cash farm receipts.
17/ Cash farm income.
18/ Includes farms in Claiborne, DeSoto, Rapides, Union counties.
19/ For owner farms.
20/ Includes farms in 12 counties.
21/ Large sugar cane farms located near Bayou Teche, Bayou Lafouche, and the Mississippi River and on which substantially all of the labor was hired.
22/ Cultivated area.
23/ All costs of labor have been deducted. The figures in the farm income column in this instance is the return on capital.
24/ Includes such items as W.P.A. and other non-farm labor, oil leases, and pensions or some other kind of fixed income not depending on work or service to be performed.
25/ Food only.
26/ Beauregard Parish contains 750,080 acres, about two-thirds of which was owned by corporations in 1939. "Most of the large holdings are remains of tracts of land over which control was acquired prior to the harvest of the virgin timber. Only 89,032 acres was in farms as reported in the census of 1935," but "from 1920 to 1935, the number of farms increased from 883 to 1,551, and the data show that most of this increase was in farms of less than 50 acres." "Of the land in farms about one-third was used for crops. The farmers usually fence the cropland, but most of the rest of the land in farms cannot be identified by appearance or development from the expanse of cutover land that is used as free range for sheep, cattle, and to some extent hogs, but not regarded as land in farms. Most of the full-time farmers receiving an adequate income depend upon the production obtained from grazing sheep and cattle on the open range for an important part of their annual farm income."

"An area of more than 650,000 acres of cutover land not now occupied by resident farm families is gradually being sold to persons for the purpose of establishing resident farms, frequently on tracts of from 40 to 80 acres."

"The purpose (of this study) is to obtain more adequate information from which conclusions may be drawn with regard to (1) the possibilities of earning through the production of commercial crop and livestock products, a sufficient income to satisfactorily support families dependent on farming for a living; (2) the amount of owned assets which a prospective settler should have before settlement to guard against undue hardships for his family and the probability of financial failure; (3) the amount of land required for a family-sized farm; (4) the value of unimproved lands for grazing and crop production; and (5) whether it would be in the interest of the public welfare to develop the entire parish into residential farms."

LOUISIANA - Continued

27/ Less than 50 acres of land used per farm.
28/ 50-99 acres of land used per farm.
29/ 100-299 acres of land used per farm.
30/ 300-499 acres of land used per farm.
31/ 500-799 acres of land used per farm.
32/ 800-1499 acres of land used per farm.
33/ 1500-3999 acres of land used per farm.
34/ 4000-9999 acres of land used per farm.
35/ 10,000 and over acres of land used per farm.

1/ Rural and suburban small-scale farming. Includes farms in Allegany, Anne Arundel, Baltimore, Dorchester, Garrett, Montgomery, Prince Georges, Wicomico Counties.
2/ Cash receipts.
3/ Cash family farm income.
4/ Family labor income on cash farm income basis.
5/ Rural small-scale farming. Includes farms in Allegany, Dorchester, Garrett, Wicomico Counties.
6/ Suburban small-scale farming - full time farms. Includes farms in Anne Arundel, Baltimore, Montgomery, Prince Georges Counties.
7/ Suburban small-scale farming - part time farms. Includes farms in Anne Arundel, Baltimore, Montgomery, Price Georges Counties.
8/ Southern Maryland tobacco area. Includes farms in Anne Arundel, Calvert, Charles, Prince Georges, St. Marys Counties.
9/ Includes farms in Baltimore, Carroll, Cecil, Harford, Howard, Montgomery Counties.
10/ Family farm income.
11/ Family labor income.
12/ Includes farms in Baltimore, Carroll, Cecil, Frederick, Harford, Howard, Kent Counties.
13/ Does not include value of farmer's dwelling.
14/ Does not include value for use of farmer's dwelling.

15/ Western shore area.
16/ Eastern and western shore areas. Includes farms in Baltimore, Caroline, Carroll, Somerset, Wicomico, Worcester Counties.
17/ Includes farms in Caroline, Somerset, Wicomico, Worcester Counties - Eastern shore area.
18/ Includes farms in Caroline, Cecil, Kent, Queen Annes, Talbot Counties.
19/ Includes farms in southern Caroline and northeastern Dorchester Counties.
20/ Includes farms in Carroll, Frederick, Howard, Montgomery, Washington Counties.
21/ Includes real estate and livestock only.
22/ Small farms near Washington, D. C. Includes farms in District of Columbia, Prince Georges County, Maryland, Fairfax County, Virginia.
23/ Includes farms in Somerset and Worcester Counties, in the immediate vicinity of Pocomoke City.
24/ Farms east and west of Salisbury.
25/ Farms in southeastern Wicomico and northwestern Worcester Counties. Often referred to as the "Forest".
26/ Farm account book records, scattered over the State.
27/ Farm account book records, eastern shore area.
28/ Farm account book records, piedmont area.

1/ Includes farms in Alcona, Iosco, Ogemaw, Oscoda counties, Farm Security farms.
2/ Does not include value of farmer's dwelling.
3/ Includes farms in Allegan, Cass, Kalamazoo, Ottawa, St. Joseph, Van Buren counties, Michigan, and counties in Northern Indiana - Muckland farms.
4/ Farm Security farms.
5/ Crops harvested.
6/ Includes farms in Eaton, Hillsdale, Ionia, Kalamazoo, Lenawee, Livingston, Macomb, St. Clair counties - Farm Security farms.
7/ Includes farms in Eaton, Hillsdale, Ionia, Kalamazoo, Livingston, Macomb, St. Clair counties, Farm Security records.
8/ Includes farms in Hillsdale, Lenawee, Monroe, Washtenaw, Wayne counties - Southeastern Michigan.
9/ Cash receipts.
10/ Includes farms in Hillsdale, Kalamazoo, Livingston counties - Farm Security farms.
11/ Includes farms in Michigan, Minnesota, Wisconsin - Cut-over lands.
12/ Includes farms in Barry, Branch, Cass, Eaton, Ingham, Kent, and other counties.
13/ Some of the boundaries of the type-of-farming areas and most of the area numbers were changed for 1938 and 1939. The first set of data by type-of-farming areas herein presented follow the old boundaries and numbers, while the second set beginning at this point follow the new boundaries and numbers.

1/ Cash receipts plus increase in farm inventory.
2/ Farm produce used in house.
3/ Does not include value of farmer's dwelling.
4/ Includes farms in Blue Earth, Le Sueur, Nicollet, Waseca Counties.
5/ Includes farms in Blue Earth, Faribault, Le Sueur, Nicollet and Waseca Counties.
6/ Interest and principal paid has been deducted.
7/ Includes farms in Dodge, Mower, Olmsted, Wabasha Counties.
8/ Deer-Bear Creek Soil Conservation Demonstration Area.
9/ Soil Conservation Demonstration Area.
10/ Family farm income.
11/ Family labor income.
12/ Cut-over land study in Northern Michigan, Wisconsin, and Minnesota.
13/ Includes farms in Beltrami, Carlton, Clearwater, Hubbard, Itasca, Polk, St. Louis, Wadena Counties - Northern Minnesota Farm Management Service Study.
14/ Includes farms in Beltrami, Carlton, Clearwater, Hubbard, Koochiching, St. Louis Counties - Northern Minnesota Farm Management Service Study.
15/ Northern Minnesota Farm Management Service Study.
16/ Includes farms in Dodge, Freeborn, Goodhue, Rice, Steele, Waseca Counties - Southeast Farm Management Service Study.
17/ Includes farms in Dodge, Freeborn, Goodhue, LeSueur, Mower, Rice, Steele, Waseca Counties - Southeast Minnesota Farm Management Service Study.
18/ Includes farms in Blue Earth, Dakota, Dodge, Freeborn, Goodhue, LeSueur, Mower, Olmsted, Rice, Steele, Waseca Counties - Southeast Minnesota Farm Management Service Study.
19/ Includes farms in Blue Earth, Dakota, Dodge, Freeborn, Goodhue, LeSueur, Mower, Nicollet, Olmsted, Rice, Steele, Waseca Counties - Southeast Minnesota Farm Management Service Study.
20/ Includes farms in Blue Earth, Dakota, Dodge, Faribault, Freeborn, Goodhue, LeSueur, Mower, Nicollet, Olmsted, Rice, Scott, Steele, Waseca Counties - Southeast Minnesota Farm Management Service Study.
21/ Includes farms in Blue Earth, Dakota, Dodge, Faribault, Freeborn, Goodhue, LeSueur, Meeker, Mower, Nicollet, Olmsted, Rice, Scott, Steele, Wabasha, Waseca Counties - Southeast Minnesota Farm Management Service Study.
22/ Includes farms in Fillmore, Mower, Winona Counties - Farm Management Service for Farmers in Soil Conservation Demonstration Areas.
23/ Includes farms in Fillmore, Houston, Mower, Winona Counties - Farm Management Service for Farmers in Soil Conservation Demonstration Areas.

24/ The data on this page are from reports of the Minnesota Farm Management Service for farmer-borrowers of Rural Rehabilitation Division of the Farm Security Administration. Northern Minnesota, as used here, includes farms in type-of-farming areas V, VI, VII, VIII, and Southern Michigan I, II, III, IV, IX. In 1936 the farms were grouped on the basis of farm ownership and type of lease for tenant farms. Because of the nature of this study the summary set-up is different from that of other studies included in this publication. The items in the summary following the farm acreages are not on the farm basis, but are only for the operator's share. Farms of all types of tenure are included in the averages, except as indicated for the year 1936. In addition to the items ordinarily included in farm receipts are payments from old debts, money borrowed from Rural Rehabilitation and other sources; and in addition to those ordinarily included in farm expenses are money loaned out and payments on interest and debts to Rural Rehabilitation and others. Interest at 5 percent on net farm capital is used in calculating labor income. Value for use of farmer's dwelling is used in calculating family living from farm for tenant-operated farms, but not for owner-operated farms.

25/ Owner-operated farms.

26/ Tenant-operated farms with cash leases.

27/ Tenant-operated farms with crop-share and cash leases.

1/ Does not include value of farmer's dwelling.
2/ Does not include value for use of farmer's dwelling.
3/ Includes farms in Boone, Knox, Marion, Montgomery, Pike, Ralls, Randolph Counties, and part of St. Charles County.
4/ Includes farms in Butler, Carter, Madison, Oregon, Reynolds, Washington Counties.
5/ Includes farms in Butler, Dunklin, New Madrid, Pemiscot Counties, and part of Scott County.
6/ Includes family living from farm except value for use of farmer's dwelling.
7/ Includes farms in Caldwell, Clay, Clinton, Cooper, Holt, Lafayette, Nodaway, Ray, Saline Counties.
8/ Includes farms in Cape Girardeau, Cole, Jefferson Counties.
9/ Includes farms in Chariton, Grundy, Howard, Linn, Livingston Counties.
10/ Part-owner farms on operator basis.
11/ Tenant farms on operator basis.
12/ Crop share farms on operator basis.
13/ Stock share farms on operator basis.
14/ Tenant farms on farm basis.
15/ Includes farms in Howell, Oregon, Reynolds, Taney, Texas Counties.
16/ Includes farms in Harrison County, Missouri, and Decatur, Ringgold Counties, Iowa.
17/ Includes farms in Atchison County, Missouri, and Fremont, Mills, Montgomery, Page Counties, Iowa.
18/ Includes farms in Atchison County, Missouri, and Fremont, Montgomery, Page Counties, Iowa.

1/ Family farm income.
2/ Family labor income.
3/ Includes farms in Montana, North Dakota, South Dakota, Wyoming - northern great plains area.
4/ In 1926, acres include 2,197 acres owned and 2,667 acres leased; in 1927, include 2,433 acres owned and 3,340 acres leased; and in 1928, include 2,615 acres owned and 3,022 acres leased.
5/ Includes farms in Powder River, Rosebud Counties, Montana, and farms in North Dakota, South Dakota, Wyoming - Northern Great Plains Cattle Ranch Study.
6/ Ranches with 50 or less cows.
7/ Ranches with 51-100 cows.
8/ Ranches with 101-200 cows.
9/ Ranches with 201-450 cows.
10/ Ranches with over 450 cows.

1/ Does not include value of farmer's dwelling.
2/ Soil Conservation Service records.
3/ Operator's share, only.
4/ Family farm income.
5/ Family labor income.
6/ The same 47 farms each year.
7/ Includes farms in Fillmore County, 1913; Madison County, 1913; Merrick County, 1912; Platte County, 1911; Richardson County, 1914.
8/ Richardson County only.

1/ Metropolitan New York City area.
2/ Same 47 farms in 1926 and 1927.
3/ Identical farms 1926-1930. Twenty-two farms in 1931 were the same as those included in the 30 identical farms, 1926-1930.
4/ Study in cooperation with Soil Conservation Service.
5/ Includes farms in Cumberland, Gloucester, Salem Counties.
6/ Food products only.
7/ Hopewell, Flemington areas.
8/ Same 48 farms in 1914 and 1924.
9/ Similar vegetable farms 1928, 1929, 1930.
10/ Montague, Sandystone areas.
11/ Blairstown, Vail areas.
12/ Commercial poultry farms-116 in Vineland area, 22 in the vicinity of Lakewood, and 12 in northwestern Sussex County along the Delaware River.
13/ Commercial poultry farms well distributed throughout the State.
14/ Cobbler potato farms.
15/ Redskin potato farms.

1/ Includes farms in Bernalillo, Sandoval, Socorro, Valencia counties - Middle Rio Grande Conservancy District.
2/ Includes farms in Catron, Grant, McKinley, Sierra, Socorro, Valencia counties.
3/ Includes farms in Chaves, Dona Ana, Eddy, Grant, Hidalgo, other counties.
4/ Includes farms in Colfax, Curry, DeBaca, Guadalupe, Harding, other counties.
5/ Same farms for each year 1924-1928.
6/ From detailed farm management survey made in cooperation with the Land Use Planning Division, Resettlement Administration.
7/ Cow ranches.
8/ Does not include estimated public domain.

1/ Includes farms in Albany, Saratoga, Schenectady Counties--Capital District.
2/ Binghamton, Conklin, Kirkwood, Windsor areas.
3/ Eddyville, Maples areas.
4/ Franklinville, Machias areas.
5/ Same 84 farms in 1928 and 1932.
6/ Hicks, Horseheads areas.
7/ Earlville area.
8/ Homer - Tully area.
9/ Ticonderoga, Westport areas.
10/ Alexander, Bethany, Darien, Pavilian areas.
11/ Does not include value for use of farmer's dwelling.
12/ Bergen, Byron, Stafford, Leroy areas.

13/ Includes farms in Herkimer, Oswego, Tompkins, and other counties in the abandoned farm area.
14/ Avon, Caledonia, Genesee, Lima, York areas.
15/ Market vegetable farms with greenhouses.
16/ Market vegetable farms without greenhouses.
17/ Canajoharie, Fort Plain areas.
18/ Camillus, Elbridge areas.
19/ Includes farms in Ontario, Steuben, Yates counties--grape study.
20/ Muck-land farms.
21/ Middleburg, Sharon areas.
22/ Hortonville, Jeffersonville areas.
23/ Newark Valley, Nichols areas--land classes II and III.
24/ Newark Valley, Nichols areas--land classes IV and V.
25/ Scattered areas over the State.
26/ Includes records in Broome, Cayuga, Chenango, Cortland and other counties.

1/ Includes farms in Alamance, Durham, Forsyth, Guilford, Orange counties - Group VI.
2/ Includes farms in Alexander, Burke, Caldwell, Catawba counties - Group II.
3/ Includes farms in Alexander, Burke, Caldwell, McDowell counties - Group II.
4/ Includes farms in Anson, Cabarrus, Montgomery, Stanly, Union counties - Group III.
5/ Includes farms in Anson, Cabarrus, Stanly, Union counties - Group III.
6/ Includes farms in Burke, Caldwell, Wilkes counties - Group VI.
7/ Includes farms in Cabarrus, Catawba, Cleveland, Gaston, Mecklenburg, Polk, Rutherford, Stanly, Union counties - Group I.
8/ Includes farms in Caswell, Rockingham, Stokes, Yadkin counties - Group IV.
9/ Includes farms in Caswell, Forsyth, Guilford, Orange, Person, Rockingham, Stokes, Yadkin counties - Group IV.
10/ Includes farms in Catawba, Gaston, Lincoln, Mecklenburg, Polk counties - Group I.
11/ Includes farms in Catawba, Cleveland, Mecklenburg, Polk, Rutherford counties - Group I.
12/ Includes farms in Chatham, Guilford, Lee, Orange, Randolph counties - Group V.
13/ Includes farms in Chatham, Davidson, Davie, Lee, Moore, Randolph counties - Group V.
14/ Includes farms in Chatham, Davidson, Davie, Lee, Randolph counties - Group V.
15/ Includes farms in Chatham, Davidson, Davie, Randolph counties - Group V.
16/ Includes farms in Cleveland, Gaston, Lincoln, Mecklenburg, Polk counties - Group I.
17/ Includes farms in Davidson, Guilford, Union, Wake, other counties - dairy studies.
18/ Includes food products and fuel used by farmer's family.
19/ Includes farms in Davidson, Davie, Forsyth, Stokes, Yadkin counties - Group IV.
20/ Includes farms in Durham, Forsyth, Orange, Person, Rockingham, Stokes counties - Group IV.
21/ Includes farms in Edgecombe, Lenoir, Pitt, Wayne counties - Coastal Plain Area.
22/ Soil Conservation Service cooperators.
23/ Soil Conservation Service non-cooperators.
24/ Farm and home progress contest farms.
25/ Includes farms in Montgomery, Moore, Richmond counties - Sandhill Peach Area.
26/ Tennessee Valley Authority - demonstration farms.
27/ Does not include value for use of farmer's dwelling.
28/ Tennessee Valley Authority - non-demonstration farms.
29/ Including Sandhill Area peach farms.
30/ Excluding Sandhill Area peach farms.

NORTH DAKOTA - Continued

1/ Includes farms in Adams, Grant, Hettinger, Morton, Slope, Stark Counties--southwestern North Dakota.
2/ Average of 6 owner farms.
3/ Includes farms in Barnes, Dickey, Ramsey, Sargent, Stutsman, Towner, and 6 farms in 6 other counties--central North Dakota.
4/ Average of 31 owner farms.
5/ Includes farms in Barnes, Grand Forks, Nelson, Steele Counties--east central North Dakota.
6/ Does not include value of farmer's dwelling.
7/ Does not include value for use of farmer's dwelling.
8/ Includes farms in Billings, Dunn, Golden Valley, McKenzie, Mercer, Slope, Stark Counties--cattle ranch study.
9/ Does not include value of leased land.
10/ Average of 3 owner farms.
11/ Includes farms in Bottineau, McKenzie, Pierce, Williams Counties, and 2 farms in 2 other counties--northwest North Dakota.
12/ Average of 17 owner farms.
13/ Includes farms in Cass, Grand Forks, Pembina, Richland, Traill, Walsh Counties--Red River Valley.
14/ Average of 33 owner farms.
15/ Includes farms in Emmons, Golden Valley, Grant, Kidder, Morton, Slope Counties--southwest North Dakota.
16/ Average of 23 owner farms.
17/ Average of 5 owner farms.
18/ Average of 4 owner farms.
19/ Average of 7 owner farms.
20/ Average of 10 owner farms.
21/ Widely scattered over the State.
22/ Includes farms in Billings, McKenzie Counties, North Dakota, and farms in Montana, South Dakota and Wyoming--Northern Great Plains Cattle Ranch Study.
23/ Ranches with 50 or less cows.
24/ Ranches with 51-100 cows.
25/ Ranches with 101-200 cows.
26/ Ranches with 201-450 cows.
27/ Ranches with over 450 cows.
28/ Includes farms in North Dakota, Montana, South Dakota, Wyoming--Northern Great Plains.
29/ In 1926, acres include 2,197 acres owned and 2,667 acres leased; in 1927, include 2,433 acres owned and 3,340 acres leased; and in 1928, include 2,615 acres owned and 3,022 acres leased.

1/ This study covered ranches "operated wholly or largely on cut-over, brush, and open prairie land." "The ranches were classified as to the predominant sources of income."
2/ Family farm income.
3/ Family labor income.
4/ Value of farmer's and family labor.
5/ Vale-Ontario irrigation area.
6/ Commercial egg farms in 18 counties.
7/ Dairy farms in 22 counties.

1/ Cash receipts.
2/ Cash farm income after payments of interest and principal on debts and purchases of new machinery and improvements have been deducted.
3/ Includes farms in Beadle, Bon Homme, Codington, Day, Lake, Lincoln, Minnehaha Counties--eastern South Dakota.
4/ Includes farms in Beadle, Brookings, Deuel, Hyde, Spink Counties--central South Dakota.
5/ Family farm income.
6/ Family labor income.
7/ Includes farms in Bennett, Meade, Perkins, Shannon Counties--western South Dakota.
8/ Includes farms in Bon Homme, Brule, Hutchinson, Lake, Tripp, Turner Counties.
9/ Food only.
10/ Includes farms in Brown, Codington, Day, Edmunds, Marshall Counties--northern South Dakota.
11/ Includes farms in Brown, Campbell, Faulk, Potter, Spink, Sully, Walworth Counties.
12/ Includes fallow land, but not hay and pasture land.
13/ Does not include value of cash rented land.
14/ After cash expenses including cash rent and interest paid, and new investments, unpaid family labor, and decrease in inventory are subtracted from receipts.
15/ After interest on owned capital is subtracted from farm income.
16/ Family products used.
17/ Includes farms in Clay, Lincoln, Union Counties--Beresford Area.
18/ Includes farms in Custer, Fall River, Lawrence, Meade, Perkins Counties--western South Dakota.
19/ Same farms in 1931 and 1932.
20/ Includes farms in Beadle, Codington, Day, Edmunds, Faulk, Hand, McPherson, Potter, Roberts, Sully Counties--north central South Dakota.
21/ Includes farms in Brown, Edmunds, Faulk, Hyde, McPherson Counties--north central South Dakota.
22/ Includes farms in Codington, Day, Grant, Roberts Counties--northeastern South Dakota.
23/ Includes farms in Brookings, Clark, Codington, Day, Grant, Hamlin, Kingsbury Counties--northeastern South Dakota.
24/ Includes farms in Bon Homme, Brookings, Charles Mix, Deuel, Douglas, Hutchinson, Kingsbury, Lake, McCook Counties--south central South Dakota.
25/ Includes farms in Charles Mix, Clay, Douglas, Hutchinson, Lake, Lincoln, Minnehaha, Sanborn, Turner, Union Counties--southeastern South Dakota.
26/ Includes farms in Dewey, Gregory, Lyman, Perkins, Tripp Counties--western South Dakota.
27/ Includes farms in Perkins, Stanley, other counties, South Dakota, and farms in Montana, North Dakota, Wyoming--Northern Great Plains, Cattle Ranch Study.
28/ Ranches with 50 or less cows.
29/ Ranches with 51-100 cows.
30/ Ranches with 101-200 cows.
31/ Ranches with 201-450 cows.
32/ Ranches with over 450 cows.
33/ Includes farms in South Dakota, Montana, North Dakota, Wyoming-Northern Great Plains Area.
34/ In 1926, acres include 2,197 acres owned and 2,667 acres leased; in 1927, include 2,433 acres owned and 3,340 acres leased; and in 1928, include 2,615 acres owned and 3,022 acres leased.

1/ Data omitted in this summary when there is a record for only one farm in a county.
2/ Includes farms in Cannon, DeKalb, Giles, Lincoln, Marshall, Maury, Rutherford, Smith, Sumner, Trousdale, Williamson, Wilson Counties.
3/ Medium-sized farms, or those ranging from 200 to 296 acres.
4/ Large farms, or those of 500 acres and above.
5/ Includes farms in Greene, Knox, Hamilton, McMinn, Polk, Rhea, Roane Counties.
6/ Small farms, or those below 125 acres in size.
7/ Medium-sized farms, or those of 125-199 acres.
8/ Large farms, or those ranging from 200 to 1,209 acres.
9/ Cotton farms in Lawrence, Lincoln, Wayne Counties.
10/ Unit Test-Demonstration farms in Bledsoe, Marion, Sequatchie Counties.
11/ Small farms.
12/ Medium-sized farms.
13/ Large farms.
14/ Small farms with less than 40 crop acres and of various types, scattered over the State.
15/ Demonstration farms, Robertson County.
16/ Small farms ranging in size from 12-81 acres.
17/ Farms ranging in size from 83-119 acres.
18/ Farms ranging in size from 120-196 acres.
19/ Large farms ranging in size from 200-950 acres.
20/ Dark tobacco farms in Cheatham, Dickson, Houston, Lawrence, Montgomery, Robertson, Stewart Counties.
21/ Cotton farms in Carroll, Dyer, Gibson, Hardiman, Hardin, Henderson, Henry, Madison, Shelby, Weakley Counties.
22/ Cotton farms in Chester, Hardeman, Hardin, Haywood, Henderson, Madison, Shelby Counties.
23/ Farms in Knox County.
24/ Farms in Overton County.
25/ Farms in Washington County.
26/ Includes farms in Cheatham, Greene, Henderson, Monroe, Obion, Putnam, Sumner, Washington, Weakley Counties.

1/ Includes farms in Archer, Baylor, Callahan, King, Knox, Throckmorton, Shackelford, Stonewall Counties - north central Texas.
2/ Includes farms in Bell, Dallas, Ellis, Hill, McLennan, Williamson Counties - Black Prairie area. Data on full owner basis.
3/ Average of 343 farms.
4/ Average of 62 share cropper farms.
5/ Includes 2 cash tenant farms.
6/ Average of 179 share tenant farms.
7/ Average of 76 owner farms.
8/ Includes farms in Bell, Falls, McLennan, Milam Counties - Black Prairie area, Elm Creek Watershed.
9/ Does not include value of farmer's dwelling.
10/ Food only.
11/ Includes farms in Brewster, Culberson, Hudspeth, Jeff Davis, other Counties.
12/ Includes farms in Crockett, Edwards, Kimble, Sohliecher, Sutton, Val Verde Counties - Edwards Plateau Grazing area.
13/ Consists of 21 ranches for 4 years, 4 ranches for 3 years, 4 ranches for 2 years, 2 ranches for 1 year.
14/ Includes farms in Dawson, Hockley, Lamb, Lubbock, Lynn Counties - High Plains area.
15/ Cultivated acres.

TEXAS - Continued

16/ Piney Woods area.
17/ Family farm income.
18/ Family labor income.
19/ Farms of corresponding size for 1924 and 1931.
20/ Does not include estimated public domain.

UTAH - Continued

1/ A 3-year study of sheep ranches located in southwestern Utah, and centered at Cedar City, was begun in Nov. 1936. Figures given are preliminary from Utah 1938-1940 Biennial Report. Bulletin 294.

2/ Cattle ranches. 3/ Sheep ranches. 4/ Cattle and sheep ranches.

5/ Includes farms in Box Elder, Cache, Davie, Juab, Salt Lake, Utah, Weber counties.

6/ Includes farms in Box Elder, Cache, Salt Lake, Utah, and other counties - poultry study.

7/ Includes farms in Box Elder, Cache, Davis, Morgan, Salt Lake, Sevier, Tooele, Utah, Weber, and other counties - general farming study.

8/ Includes farms in Box Elder, Morgan, and Weber counties. A 3-year study of dairy farms in the Ogden Milkshed area.

9/ General farms in Western Box Elder County. 10/ Beef ranches in Western Box Elder County. 11/ Sheep ranches in Western Box Elder County.

12/ Uinta Basin - Reservation Area.

13/ Does not include the income for work away from the farm unless farm horses, machinery, or equipment was used.

14/ Uinta Basin - Ashley Valley Area.

15/ No work away from the farm. 16/ Less than 60 days work away from the farm. 17/ 60 or more days work away from the farm.

1/ Includes farms in Albermarle, Nelson, Rappahannock Counties-Piedmont Apple Study.
2/ Includes farms in Augusta, Rockingham Counties.
3/ Does not include value of farmer's dwelling.
4/ Does not include value for use of farmer's dwelling.
5/ With 5 or more cows.
6/ With less than 5 cows.
7/ Flue-cured tobacco farms.
8/ Fire-cured tobacco farms.
9/ Includes farms in Fairfax County, Virginia, District of Columbia, and Prince Georges County, Maryland-small farms near Washington, D. C.
10/ Farms with less than 15 percent of receipts from work off the farm.
11/ Farms with 15 or more percent of receipts from work off the farm.
12/ Includes farms in Montgomery, Pulaski, Smyth, Washington, Wythe Counties. Beef-cattle study.
13/ Group I contains records from Augusta, Botetourt, Carroll, Culpepper, Fauquier, Franklin, Page, Patrick, Roanoke, Rockingham, Shenandoah Counties.
14/ Group II contains records from Albermarle, Appomattox, Bedford, Buckingham, Campbell, Charlotte, Fairfax, Halifax, Henry, Mecklenburg, Nottaway, Orange, Pittsylvania, Prince Edward, Prince William, Stafford Counties.
15/ Group III contains records from Charles City, Chesterfield, Hanover, Henrico Counties.
16/ Group IV contains records from Accomac, Elizabeth City, Gloucester, James City, Lancaster, New Kent, Northampton, York Counties.
17/ Mixed farms in the Belfast Community.
18/ Mixed farms in Dickenson County.

WEST VIRGINIA - Continued

1/ Includes farms in Barbour, Pocahontas, Preston, Wetzel Counties - Tennessee Valley Authority Demonstration farms.
2/ Includes farms in Berkeley, Hampshire, Jefferson, Morgan Counties - eastern Panhandle orchard farms.
3/ Includes farms in Berkeley, Hampshire, Jefferson, Morgan Counties - eastern Panhandle orchard-general farms.
4/ Includes farms in Berkeley, Hampshire, Jefferson, Morgan Counties - eastern Panhandle general-orchard farms.
5/ Does not include value for use of farmer's dwelling.
6/ Same farms each year, 1913-1917.
7/ Studies in Soil Conservation area projects.
8/ Family farm income.
9/ Family labor income.
10/ Dairy Herd Improvement Association cooperators distributed over the State.
